SKILLS

- I love change & learning something new
- Interested in team dynamics & culture
- HTML & CSS incl frameworks
- Javascript
- Node.js
- Express.js

- JQuery
- DOM manipulation
- mySQL & sequelize
- MongoDB & mongoose
- OOP
- MVC paradigm
- APIs

BOOTCAMP & PROJECTS

Carleton University Fullstack Bootcamp - *Current student*

August 2021 - February 2022

- Intensive program focused on teaching the most in demand skills

Interactive fullstack group project - *Sputtle*

- Sputtle uses the Spotify API to battle songs against each other to see who will rise to the top of the leaderboard. It's a fun way to listen to music and discover new songs.
- MySQL and Sequelize ORM database
- Deployed live on Heroku
- Utilizes the MVC paradigm
- Responsive UI
- Incorporates Spotify's API and OAuth 2.0
- I loved diving into Spotify's documentation to figure out how to use it for authentication, and which components of it's API would be most beneficial for our UX

EXPERIENCE

The Workplace Safety & Insurance Board (WSIB), Ottawa - *Nurse Consultant*

September 2014 - September 2021

- Remain current on ever changing best practices and incorporate them into my work to help obtain the best outcomes for clients
- Write clear memos and letters outlining my decisions and their rationale so that anyone coming to the file new could easily understand what I had actioned

The Victorian Order of Nurses (VON), Peterborough- *Visiting Registered Nurse*

May 2011 - September 2014

- Be flexible and adaptable to provide quality care with the available resources. I would often encounter unexpected situations, while being the only nurse with a limited amount of supplies on hand. I thrived with these challenges and worked to ensure my clients received appropriate and quality care
- Mentor new hires and students

Southlake Hospital, Newmarket - *Inpatient surgery Registered Nurse*

July 2010 - April 2011

- Maintained a clear head in unpredictable situations
- Floated to other floors when needed, gaining new experiences and increasing my ability to readily adapt to change

EDUCATION

Carleton University Fullstack Bootcamp - *Current student*

August 2021 - February 2022

- Intensive program focused on teaching the most in demand skills

University of Ontario Institute of Technology (UOIT) / (now Ontario Tech) - *Bachelor of Science in Nursing (BScN)*

September 2006 - August 2010

I was drawn to nursing for the opportunity to work in an ever-changing field where I had the opportunity to help people in an impactful way.
